Democratic digitalisation

A digital transition based on human rights, by design and by default.

Sovereign digitalisation

Digitalisation in which one can control the use and destiny of created content and generated data.

Disintermediated and distributed sovereignty to reach the smallest stakeholder/co-responsible unit of the democratic architecture: each citizen.

A problem of enforcement of directives 23 and 24/2014.

The (local) economy of SMEs is **de facto** not allowed to take part in the digital revolution because the tenders are unjustifiably huge and unaffordable for everyone apart from large companies.

A PROCLAMATION

To Restrain the Spreading of False News, and Licentious talking of Matters

O F

State and Government.

CHARLES R.

Whereas of late many persons ill affected to the Government have assumed to themselves a Liberty in their ordinary Discourses to ensue and defame the Proceedings of State, whereby they endeavour to create and nourish in the minds of his Majesties good Subjects an evil opinion of things they understand not; And further to promote their Seditious ends, they do daily invent false News, and spread the same abroad amongst the People, to the great scandal of his Majesties Government: Whereof his Majesty taking notice, and in particular of that very false Report of an intention to dissolve this present Parliament, which hath not been under deliberation, his Majesty seeing no cause to change his resolutions taken touching their meeting: his Majesty therefore looks upon the Spreaders of that Report as persons notoriously malicious and ill affected to his Service, And considering that by the Laws of this Realm great and heavy penalties are to be inflicted upon all such as shall be found to be Spreaders of false News, or promoters of any malicious Calumnies against the State by their ordinary and common Discourses to stir up dislike in the People of his Majesties Person and the establishment of Government, whereof his Majesty is sensible the persons offending are not ignorant, he doth think fit, that all men may be kept without excuse who shall not hereafter contain themselves within that modest and dutiful regard which they ought, his Majesty hath thought fit, by the advice of his Council, to publish this his Royal Proclamation, And doth hereby forewarn and straightly Command all his Loving Subjects of what state or condition soever they be, from the highest to the lowest, that they presume not henceforth by any writing or speaking to utter or publish any false News or Reports, or to intermeddle with the Affairs of State and Government, or with the persons of any of his Majesties Counsellors or Ministers, in their common and ordinary Discourses, as they will answer the contrary at their utmost perils. And Whereas all bold and irreverent speeches touching matters of this high nature are punishable not onely in the Speakers but the hearers also, unless they do speedily Reveal the same unto some of his Majesties Privy Council, or some other his Majesties Judges or Justices of the Peace: his Majesty doth hereby further Declare, that he will proceed with all severity not onely against such persons as shall use any bold and unlawful speeches of this nature, but also against those persons who shall be present where such speeches are used, without Revealment the same in due time, his Majesty being resolved to suppress this Unlawfull and Traitorious kind of Discourse, by a most strict and exemplary Punishment of all such Offenders as shall hereafter be discovered.

Given at Our Court at Whitehall, the Second day of May, 1674. in the Six and twentieth year of Our Reign.

God save the King.

L O N D O N.

Printed by the Assigns of *John Bill* and *Christopher Barker*, Printers to the Kings most Excellent Majesty. 1674.

A proclamation to restrain the spreading of false news, and licentious talking. Sovereign (1660-1685, King Charles II). Re-printed 1672.
